

“WELCOME to the newest issue of *The Shiloh Times*... *all the news that is fit to chew!*

Message From Your Board!

The second quarter has been an exciting time for the Club! We sponsored two large events.

- IEW (Int'l Event Weekend & National Show) –was held on the west coast in Winlock, Washington for the **FIRST TIME!**
- Spring Classic – was held in a new location in Bethlehem, Pennsylvania

Both events had amazing turnouts with wonderful dogs and wonderful people. Besides the shows, we were able to perform CGC Testing, Temperament Testing and the Shiloh Shepherd Ambassador Testing. Handling classes were done at both locations. In addition, the IEW offered a Myra Savant Harris seminar.

Good times were had by all! It was a time to catch up with old acquaintances and meet lots of new people.

A huge **THANK YOU** to everyone that helped to make these events successful. No matter how big or small your contribution was, it takes so many

people to pull all the pieces together. We all made it happen!

Check out all the winners in the Events Results section of this publication.

June 1st, always kicks off the new year for the Club. We welcomed new (and seasoned) Directors to the Board. Let's welcome Stephanie Houck, Stacey Andres McBride (re-elected), Bonnie Miller and Monica Popaduke. Last year's accomplishments were summarized last on the Members Only Facebook group...take a look!

The new Board will continue our work with Health and Genetics, Rescue and Re-Home, Kodiak Wheels and Fundraising. We are looking forward to charting out our goals for this year.

As usual, we are always looking for input from the membership. Please consider becoming involved with your Club! It takes all of us to keep the Club running. Thank you to all of you who support the ISSDC!

Volunteers Welcome!

Please consider becoming involved with your club! There are several committees to choose from and we are always looking for new ideas. If interested, please contact the Board at boardofdirectors@issdc.com

“ARTICLE „ Shiloh Genetic Diversity Study

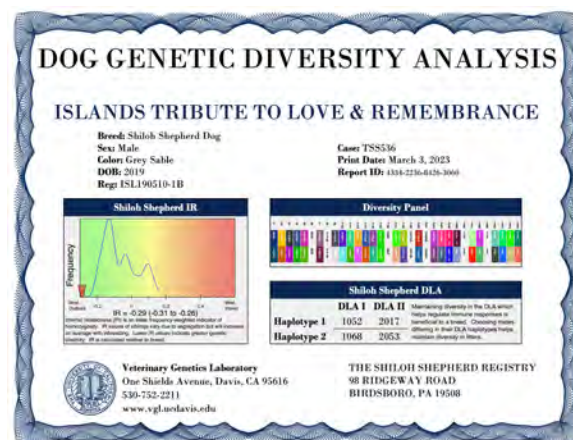

Want to do something easy and inexpensive to ensure continued viability of the breed we love? Even if your dog isn't contributing to the next generation of Shiloh Shepherds – and especially if he/she has been - the UC Davis Shiloh Genetic Diversity study needs YOU!

The study is designed to help the Shiloh owner community identify trends in health and a variety of genetic material within the breed. Results can range from identifying desirable and/or undesirable genetic components of specific bloodlines, to helping our Club and registries determine the need for outcross infusion – and what direction that might take – down the road. You'll receive a report that measures the degree of diversity in the genetic material for your dog. It will also contribute to understanding the degree of diversity in the breed, and compare those levels in the Shiloh breed to other established breeds. The project is currently moving into Phase II, since there is a sufficient number of samples that have been submitted to begin analysis.

Participating in the study is an easy and inexpensive addition to the DNA parentage validation that is already required by the Shiloh Registries. Special rates are available to any Shiloh owner using the Registry available through the UC Davis partnership with The Shiloh Shepherd Registry (TSSR). Even if your dog has a non-breeding registration, and/or you are not intending to conduct other diagnostic health testing, please consider participating in the study. The information provided on all Shilohs is extremely valuable to the continued viability of the breed. Submitting a sample merely involves a buccal (cheek) swab from your dog. UC Davis will provide the instructions and materials needed by mail after you purchase your report.

Owners with DNA already on file at UC Davis can add a dog to the study from its existing sample, if sufficient sample volume exists. This is especially valuable from owners of deceased dogs that were utilized in Shiloh preservation and breed development over the years.

To initiate the process of adding your dog to the study, or learn more about it, please visit www.Shilohs.org/health-genetics or contact Avril Williams, ISSDC Genetics Committee Chair, via Facebook.

“SHILOHS and the PEOPLE WHO LOVE THEM „

🐾 THE BRIGHT & BEAUTIFUL THERAPY DOG, INC. ORGANIZATION

The Bright & Beautiful Therapy Dogs, Inc. charitable organization (BBTD) founder and Executive Director, June Golden has always been passionate about Pet Therapy. June stays driven by the positive impact her organization has brought to so many. She tells the story of a time she witnessed a true miracle with her own eyes. A young girl, who had been in a coma and unresponsive for quite some time, miraculously uttered the word “Beautiful”. The miracle occurred as she was touched by the gentle paw of a BBTD therapy dog. The family was so overjoyed by this response and knew the visits would play a crucial component in their child’s recovery process. Both family and patient continued to benefit from dog therapy visits, throughout this young lady’s recovery. June also told the story of a visit to an adult daycare center. Upon arrival she noticed a man whose face lit up when he saw a dog enter the center. This gentleman’s response to a visit from a Border Terrier therapy team was one she will never forget. He got right up, and without hesitation, began educating the group. He spoke on the breed with such enthusiasm and was beaming. What June later found out was, this was the first time he’d ever spoken at the facility!

June has witnessed the many blessings of Pet Therapy, especially after 9/11. The BBTD organization was honored to have had the opportunity to provide comfort, unconditional love and solace at a Ground Zero Family Center for the victims of the families. “The best feeling in the world is walking in a room with a Therapy Dog, and knowing it changes everything,” ~June

June founded BBTD in 1999 after serving as an evaluator for three other nationwide Pet Therapy groups. A 501(c)(3) organization, BBTD is dedicated to training, evaluating and qualifying people and their well-behaved dogs as therapy dog teams. Active in all 50 US states, the organization has certified more than 30,000 handler/dog teams for pet therapy. BBTD certified Therapy Dog teams provide multiple services within their communities, visiting nursing homes, assisted living facilities, hospitals, homeless shelters, schools, libraries, courthouses, universities, and in private homes. Recognized by the American Kennel Club as a Therapy Dog Organization, BBTD has contributed to the development and growth of Therapy Dogs throughout the United States. Services are free and Pet Therapy teams are always volunteers; donations qualify for tax deduction.

“A great therapy team consists of a dog and handler who are equally excited to bring comfort to others,” June advises; a dog with significant fear or shyness may not enjoy this type of work. She stresses the dog/handler team should display mutual respect – the dog in the form of basic obedience skills, the human in the form of recognizing the dog’s interests and enthusiasm. “A dog that is highly trained and compliant, but lacks passion for therapy work, may not be the best fit. June recommends finding your dog’s passion and following it! Whether it be providing a quiet comforting presence to seniors or bringing fun positive energy to children in elementary schools, therapy work has something for everyone. The key is finding what you love, as a team. To get started, June’s #1 tip is, get your dog out and socialize! Once a puppy is fully vaccinated, she strongly suggests exposing them to different settings,

environments, sights, sounds, and smells. A well socialized dog will provide the framework needed to become a successful Therapy dog.

When it comes to Shiloh Shepherds, June believes the breed makes wonderful candidates for therapy dog work. She explained, their gentle temperament paired with their majestic presence are always sure to make heads turn. June especially loves seeing the smiles in the room when a giant Shiloh shows up in full costume or performing quirky tricks! She encourages therapy dog teams to “have fun with it!” BBTD members Kathy Kurek and Patsy Buchell agree; Therapy Dogs Hercules, Zacar, Briza, and Oso, truly enjoy making a difference in their communities through BBTD visitation.

In addition to evaluation, certification, and membership, BBTD provides insurance coverage for qualified teams during visitation events. BBTD activities also support the AKC Therapy Dog Novice through Supreme titles and have their own Trrrrific Awards, participating dogs may earn. For more information on how to get started and finding a BBTD evaluator near you, follow the link: www.golden-dogs.org.

🔦 SPOTLIGHT on PATSY BUCHELL'S SHILOH OSO and Therapy Work

One of The Bright and Beautiful certified Therapy Dogs is Patsy Buchell's Oso. This gentle giant is a fixture in his small town of Branchville, NJ. He is very active in his community and can be seen volunteering his therapeutic skills whenever the opportunity arises.

Owner Patsy Buchell advises that although initially she had difficulty finding a training facility that could maximize his full potential, she was determined to see him succeed. Patsy felt that the Shiloh breed and specifically Oso requires a compassionate understanding of his individualized needs and his motivation to love and please others. Utilizing positive reinforcement techniques, Patsy was able to tailor a successful curriculum for Oso. In addition to his Therapy Dog credentials, Oso has earned his CGC certification and an advanced Companion Dog Certificate – Urban (CGC-U) title. He also works on his “tricks” portfolio every day – his latest accomplishment is “say a prayer” - as well as his obedience skills. He can often be found acting as an ambassador for the Shiloh Shepherd breed at local events and businesses, where the love is mutual with everyone he encounters, and his self-control and obedient nature are always admired.

Oso's potential was put to the test in 2022, when Patsy was involved in a head-on auto collision and sustained injuries to her spine and neck that required surgical correction. Oso stepped up to provide mobility assistance, quickly learning to use himself physically to assist Patsy with stability and balance during her recovery. In addition, he mastered bringing Patsy various objects on command, like her phone, wallet, or keys. Oso can even “go fetch” family members by name if Patsy is having a difficult time and needs them. A good friend indeed, Oso is a wonderful illustration of the empathy, adaptability and responsiveness of the Shiloh Shepherd!

Vintage Shiloh's Oso Del Cielo
aka Oso

“ACHIEVEMENTS” , Temperament Tests, CGC, & Shiloh Ambassadors

The Shiloh Shepherd Breed Standard describes “a distinct impression of nobility with a unique aura of intelligence, that radiates a sense of regal wisdom and strength.” Timidity, sullenness, and lack of animation are all cited as characteristics that impair the general character of the breed; a “happy attitude” is used to describe the ideal dog.

The Shiloh breeding community and registries require objective evidence of proper temperament for Shilohs registered as breeding animals. This testing maximizes the potential that each generation of Shilohs continues to display the mental characteristics that define our breed.

The common tests used to demonstrate temperament characteristics are the -

- Temperament Test (TT), offered by multiple organizations including American Kennel Club (AKC), American Temperament Test Society (ATTS), and ISSDC;
- Shiloh Breed Ambassador - Adult (SBA) and Puppy (SPA), offered by ISSDC; and
- AKC Canine Good Citizen (CGC) certification, including the advanced Community Canine (CC) and CGC-Urban (CGC-U) certifications.

Each of these tests, when passed, results in a title earned by the dog which is acknowledged by the registry and should be included whenever the dog is referred to by its registered name. They're an easy and fun way to break into the world of titling your dog and showcasing the breed. Most Shilohs with very basic training and socialization have all the skills they need to pass these tests.

For more detailed information about the specific test exercises for each title and opportunities to have your dog evaluated, you can visit AKC.org, ATTS.org, and shilohs.org.

🐾 Our newest TT, CGC, SBA & SPA Achievements

TT (Temperament Test):

- ★ Jagger, Tim Thompson
- ★ Hazel, Renee Swan
- ★ Bonnie Lass, Melody Boeringer-Hartnup
- ★ Kepler, Amanda Carnes
- ★ Marley, Rhonda VanEmon

◆ IEW23 Show Videos

The ISSDC is a large geographically diverse club. Consequently it's hard for all members to have access to all events. A special thank you goes out to our long-time member, Shana Greene, for bridging that gap for the IEW in Winlock, Washington. Thanks to her time & efforts (and that of Lori Lamoureux who videoed Shana while she was in the ring herself), we are able to bring the show to you. Visit the playlist of videos for the event [[HERE](#)].

Note: the video upload process has been a slow one. When complete all 4 shows will be available. Thank you for your patience while we work.
